

I am concerned that the expansion of LPFM usage, may eliminate K-LOVE locally, which uses translator services.

This station is very important to me personally, to the community, and to communities across the nation.

K-LOVE provides more information and support to people in need THAN ANY OTHER RADIO STATION.

The loss of K-LOVE, would be felt by literally hundreds of thousands of listeners. It's service is unique and could not be replaced.

James C Stumpff
